## STRIKE HANDICAPS

Is Barely Making a 50 Per Cent. Showing, According to Trade Reviews.

MANY FURNACES BANKED

Estimates Are 500,000 Tons of Pig Iron Products Have Been Lost.

The iron and steel industry is scarcely making a 50 per cent, showing at present as a result of the handleap which the recent strike has placed on it, according to weekly reviews of trade conditions. Of course the clearing up of the strike has had some effect toward an improvement in the steel situation, it is said, but the cumulative effects of the congestion which the railroad strike caused cannot be removed for a long time. It is even hinted that further curtailment in some districts may be

necessary.
It is estimated at present that 500,000 tons of pig iron products have been lost by the banking of so many furnaces, made necessary by inability of comstrike. More than seventy-five blast furnaces are banked in the country, it is said. Some furnaces in the Buffalo district have resumed operations, but in other sections conditions are said to be very bad.

"Stagnation of Iron and steel opera tions has extended itself during the past week," says the Iron Trade Review, "and at present the iron and steel in-dustry, struggling against the strike handicap, is scarcely able to make a 50 per cent. showing. While the primary cause of the tie up is beginning to clear up in a number of directions, the cumulative effects of the congestion are con-tinuing and it is feared that further contraction of output will result and ne difficult times must be faced before production can be restored. Coal apparently is the key to the situation, since plant reserves rapidly are being exhausted to maintain only fractional op-erations and some time must elapse bepreferred stock and two and one-half fore these are replenished to the point required to sustain normal activities. A new complication is the demand of ore loaders at upper lake docks for a 40 per cent. wage increase and a triple shift. This and the shortage of vessel coal is delaying opening of the season's movement of lake ore.

The Iron Age says: "While the end of the railroad strike is in sight, the de-livery of steel products is seriously disorganised and the return to normal con-ditions is not expected for a good many days. Buying has been much curtailed in the past week and manufacturing consumers of pig iron and rolled steel have been compelled in many cases to down wholly or in part because their fuel supply was cut off.

"East of Pittsburg the shutdowns were less serious. Of thirty-eight blast furnaces of the Bethlehem and Midvale companies twenty-nine were in blast at the beginning of this week. Many isolated furnaces in Ohio and Pennsylhave been compelled to bank for lack of fuel."

To Be Listed on Big Board.

Three listing applications were passed n favorably by the governing committee of the New York Stock Exchange yesterday, two being for additional stock of corporations, securities of which are on the big board, and the third, that of Cosden & Co., which has been traded in on the New York curb. The Cosden application sought permission to list temporary interchangeable certificates for 194,194 shares of common without par value. The other two listings were the Cuba Cane Sugar Corporation's \$25,-000,000 of ten year 7 per cent. con-vertible debenture bonds and the P. EGGS—Receipts yesterday, 7.220 cases. There appears to be no improvement in the delivery conditions in this market and the limited supply arriving is obtained with difficuity, largely at outlying points. Still the quantity coming in and on hand is about sufficient for the current needs of the trade at the prices quoted yesterday and the market shows no change, with a generally steady tone. Nearby white eggs of extra fancy quality are in comparatively light supply and there is some demand for these at relatively full prices. ### Floor Space Is Valuable

Corporations are today confronted with the necessity of economizing in floor space and eliminating burdensome details of operation.

The present is therefore an opportune time for companies maintaining departments for the transfer of stock and payment of dividends to appoint a Trust Company to perform these services.

We shall be glad to have our representative call and explain the advantages of having this Company act as agent in such capacities.

Booklet "A TRUST COMPANY AS TRANSFER AGENT AND REGISTRAR" will be sent upon request.
